

KOPANENG SECURITY

PTT & SECURITY SOLUTIONS

iTalk200 4G

Global PTT service via 4G network

Cost-effective professional trunked features

Easy-to-deploy & Easy-to-expand network

Large coverage & less limit in capacity with professional appearance

Features:

- **Global PTT Service:**
Users can use PTT service globally via public operator's existing mature 3G network.
- **4G / GSM (GPRS) / WIFI Transmission:**
It provides flexible ways of using PTT service under various radio environments, if WiFi is on, WiFi will be the first choice for transmission; if WiFi is off, then 4G comes first.
- **GPS**
- **Remote Programming over the Air via Public Radio Network Enables Lower Customer Maintenance Cost:**
Users can modify the setting for the two-way radio through web-based management platform or App in smart phone, then the modified parameters will be sent to radio via 4G network automatically
- **Remain User Operation Habits of Critical Communication:**
With supporting basic functions of professional two-way radio, like voice services (all call / group call / private call alert call etc); Text message; Tone alert (incoming call / outgoing call / text message / talk permit / low battery / emergency panic) etc.
- **Advanced Signalling Service**
- **Kill / stun / revive, to enable flexible management**
- **iTALKPTT software-Includes monitoring / recording and a unique guard patrolling system**
- **IP54 Protection Design (Splash Proof)**

iTalk K320 4G NFC (LED)

Designed with built-in Bluetooth, Wi-Fi and GPS/NFC modules, the iTALK320 is ideal for various applications. Its ultra-slim body offers a comfortable grip. Three programmable keys achieve such functions as alarm, specified call type, user announcement and voice playback, satisfying your preferences. With a light weight of 200g, it's convenient to carry around. The iTALK320 is ideal for industries such as private security, transportation, logistics, property and hospitality management and shopping centres, among other uses.

Features:

- **Slim and lightweight**
- **24mm super slim body**
- **1.77" colour display**
- **NFC**
- **PTT Call Types:**
Support 4G and Wi-Fi networks to achieve wide-area communication. Support individual call, group call, all call and broadcast call via the large PTT key. Three programmable keys to satisfy user preference.
- **Precise Positioning:**
Supports GPS positioning for higher efficiency and precision.
- **High-Capacity Battery**
- **3000mAh high capacity battery for extended operation time.**
- **Professional User Interface:**
Large easy to read 1.77" TFT color display screen. It brings simple, natural and user-friendly interfaces.
- **iTALK Patrol**
- **Built-in Bluetooth, GPS and NFC modules bring more possibilities of extended applications; e.g. working with the iTALK Patrol system.**
